Natural Stone is a relatively hard, naturally formed mineral or petrified matter, produced by nature. Therefore, considerable variations including, but not limited to, color, texture, size, and cleft will occur in all natural stone. Samples, sample panels, brochures, photographs, computer-generated pictures, and the Internet may be, in some measure, different from the stone you actually receive. Laboratory tests, if conducted, are performed on small samples and cannot be totally accurate because of the limited scale of the tests. Please be sure that all involved parties are aware of these facts, so an informed decision can be made regarding natural stone.

Use of Chemicals: Acid or chemical cleaners are not recommended because of the inability of the user to control its use, and are never recommended for Limestone and Marble. User accepts all risks.

DISCLAIMER OF WARRANTY AND DAMAGES:
 Rolling Rock Building Stone Inc. products are provided to you "AS IS" without warranty of any kind, either expressed or implied, including, but not limited to the implied warranties of merchantability, or fitness for a particular purpose.

Pattern Cut Size: Cappuccino™ Pavers are cut to near precise metric dimensions, producing a very high quality product having square corners. Imperial length and width measurements as indicated in inches reflect a nominal size only.

Special Notice on Pattern Size: This product is an *excellent* choice for dry-laid work due to the stone's uniform thickness & cut-to-square quality in addition to the ability to match pieces without extensive field cutting.

(Example - Two 30 cm lengths = 60 cm.)
