The Story of Homestead Blend

Rolling Rock Building Stone Inc. presents the picture story of a custom blend of fieldstone. It is a creation of qualified installers who have the ability to see the finished product, the ability to shape and place the stones, and the ability to satisfy the customer. This application is performed with 100% fieldstone, each stone was cut in the field by the stone masons, and installed on a 6" masonry allowance on a poured foundation. True success in genuine stone masonry is achieved through cooperation and a desire to be an element and part of a statement that will leave a legacy.

"Commitment to Quality...the Cornerstone of Our Success!"
