 Phone: (610) 987-6226, Fax: (610) 987-9779, Web: [www.rollrock.com](http://www.rollrock.com)

*Natural Stone* is a relatively hard, naturally formed mineral or petrified matter, produced by nature. Therefore, considerable variations including, but not limited to, color, texture, size, and cleft will occur in all natural stone. Samples, sample panels, brochures, photographs, computer-generated pictures, and the Internet may be, in some measure, different from the stone you actually receive. Laboratory tests, if conducted, are performed on small samples and cannot be totally accurate because of the limited scale of the tests. Please be sure that all involved parties are aware of these facts, so an informed decision can be made regarding natural stone.

Use of Chemicals: Acid or chemical cleaners are not recommended because of the inability of the user to control its use, and are never recommended for Limestone and Marble. User accepts all risks.

DISCLAIMER OF WARRANTY AND DAMAGES:  
 Rolling Rock Building Stone Inc. products are provided to you "AS IS" without warranty of any kind, either expressed or implied, including, but not limited to the implied warranties of merchantability, or fitness for a particular purpose.

**Peconic™ Product Specifications**

**Geology:** Recrystallized marble; very hard similar to quartzite in density and texture

**Product Type & Finish:**

**Pattern Cut Pavers:** ¾" - 1" nominal thickness. Natural cleft top. Tool marks may be visible sawn bottom & edges.

**Coping:** Natural Cleft with 1 long edge bullnosed.

**Pattern Cut Size:** Peconic™ Pavers are cut to near precise metric dimensions, producing a very high quality product having square corners. Imperial length and width measurements as indicated in inches reflect a nominal size which is approximately ½" short of the full dimension.

**Special Notice on Pattern Size:** This product is an *excellent* choice for dry-laid work due to the stone's uniform thickness & cut-to-square quality in addition to the ability to match pieces without extensive field cutting.

(Example - Two 30 cm lengths = 60 cm.)

**Custom:** On larger projects with proper planning and advance notice we can order special sizes or custom fabricated material from the factory to meet job specific requirement. This will reduce time and labor on site and may reduce overall project cost. Please consult a sales representative for more information.
